

## Target Requirements Compliance Setup Action Items

- **Regulatory & Certification Setup:**
  - Identify and document the necessary FDA/USDA regulations your products must comply with.
  - Assist with the application and preparation for GFSI certifications (SQF, BRC, FSSC 22000).
  - Set up preventive controls to comply with FSMA regulations.
- **Labeling & Packaging Setup:**
  - Ensure that the product labels are designed to meet FDA standards, including accurate nutrition facts, ingredient lists, and allergen declarations.
  - Provide guidance on how to meet Target's packaging specifications, including GS1 barcode implementation.
- **Allergen Control Setup:**
  - Help establish an allergen control plan, including procedures for preventing cross-contamination.
  - Assist in setting up allergen labeling that meets Target's standards.
- **Traceability & Recall Setup:**
  - Set up a traceability system to track product ingredients and batches from production to distribution.
  - Develop a recall management plan, ensuring your business is prepared to respond quickly in case of product safety issues.
- **GMP Compliance Setup:**
  - Set up the necessary procedures and documentation to meet Good Manufacturing Practices (GMP), including sanitation, hygiene, and facility standards.
- **Shelf Life & Packaging Testing Setup:**
  - Assist in setting up protocols for shelf life testing and packaging assessments to ensure product quality and compliance with Target's guidelines.
- **Sustainability & Ethical Sourcing Setup:**
  - Provide the framework for implementing sustainable sourcing practices and meeting Target's environmental and social responsibility expectations.
- **Vendor Code of Conduct Setup:**
  - Guide through the setup of business practices that align with Target's Vendor Code of Conduct, including ethical labor practices and safety protocols.
