Storage

Input applicable details:

Shelf Life – the length of time that a product remains usable.

Storage and Handling Requirement – the specific conditions necessary to store and handle products to maintain their quality, safety, and integrity.

Storage/Warehouse Location – the address of the storage/warehouse facility.

UPC Code – (Universal Product Code) is the unique identifier assigned to each product.

Storage	Input applicable details: (cont.) GTIN Number – (Global Trade Item Number) part of the GSI system used worldwide to identify products. Lead Time – the time when a product is finished and ready for shipping until it is delivered to the customer. Minimum Order Quantity – the smallest number a buyer must purchase in a single order.
Distribution	Choose the Type of Distribution (Local or International.) If International, specify the Country.
	Click to save input progress.
